Screen Writing Course
For Beginners

Screen Writing Course for Beginners

This program has been designed for the beginners in screenwriting. It's mainly for those who wish to learn the art of writing stories and screenplays for short films, feature films & television series. The course covers the whole process of professionally developing an engaging story & screenplay from scratch.

It consists of several practical sessions on developing concepts, characters outlines, plot points etc. Student learn to write scripts on a professional script writing software in a standard international format. Students finish their first debut short film script during the course, which is showcased on the website of Creative Bites for visitors, directors & production houses.
